PHILOSOPHY Mr. Shehzad believes the effect of practising the marketing concept philosophy on export performance in international markets. Already established competitors may have brand loyalty and established channels of distribution and enjoy a good market share. In such an environment, a new producer-exporter who wants to introduce his product will make his product more attractive so that it may generate a certain amount of brand loyalty. For this purpose, the easiest way to offer the product at a very competitive price, perhaps at a price which is below its cost price. The loss in such a market may be set off against the profits in other export markets or an domestic market.
